A Joe Marsh Cartoon

From where I sit ... *by* Joe Marsh

They Do "Give A Hoot" For Easy

Easy Roberts finally got rid of the noisy pigeons that used to whoop it up under his eaves.

He must have tried a dozen ways to scare them off. But no matter what he did, they would be right back cooing by his window the next morning.

Then Easy thought of an old stuffed owl he had in his attic. He propped it on the roof so's all the pigeons could see it. They left . . . and three hoot owls have taken their place. Easy swears the hooting is even worse than the cooing of the pigeons.

From where I sit, quite often a "bright idea" will turn out to be "not so bright" after all. That's why we should never be too cocksure of our ideas and opinions—but always try to keep an open mind. I believe a refreshing glass of beer is the best thirst-quencher —you may believe differently. But who's to say one's right and the other is wrong? Let's just practice tolerance. It'll save a lot of hootin' and hollerin'.

Joe Marsh
